NOTES AND PRECIS.

S.N. 1 (P) Letter No.1800/147-B, dated the 11th/13th November 1933, from the Residency Surgeon, Bangalore.

S.N. 2 Letter No.1801/147, dated the 11th/13th November 1933, from the Residency Surgeon, Bangalore.

P.u.c.I.

The Residency Surgeon recommends

(1) The deputation, to the Bowring and Lady Curzon Hospitals, for a period of one month, of the Pathologist attached to the Rajkot Hospital, on payment of an honorarium of Rs.100 and second class return railway fare from Rajkot to Bangalore amounting to Rs.80/12/-, to give necessary training in the laboratory methods to the Pathologist of the Bowring and Lady Curzon Hospitals.

(2) The purchase of a second Incubator and certain other articles of equipment for the laboratory at a cost not exceeding Rs.450 and 150 respectively.

The expenditure is within the sanction of the Hon'ble the Resident and ~~the Residency Surgeon says that~~ it can be met out of the current year's allotment. In view of the reasons given by the Residency Surgeon in the P.u.c. in support of the proposal, it may perhaps be sanctioned.

Draft I

Draft I submitted for approval.

P.u.c.II.

The Residency Surgeon requests the appointment in the Bowring Civil Hospital of an additional Sub-Assistant Surgeon on Rs.75-5-175, plus Local Allowance of Rs.25/- per mensem. The Resident can create such an appointment under rule 56 of the Book of Financial Powers. The Residency Surgeon has not stated how he proposes to meet the expenditure

page 15 of the book f.p.

expenditure. He may be asked about this before the proposal is sanctioned.

Draft II submitted.

SECRETARY. 4/o

Regarding P.U.C. 11-

6

To meet this expenditure, there is a saving of Rs 2177/- in the year 1933-34 under the allotment A-1-Account III-Medical & Public Health-Hospitals & Dispensaries-Pay of Officers- as shown in my statement submitted under my No. 1880/30, dated the 20th. November 1933. There will be also a saving of Rs 2400/- in the Budget of 1934-35 under A-2-Pay of Establishment-Account III-Medical & Public Health-Hospitals & Dispensaries-.

OFFICE OF THE RESIDENT IN MYSORE,
BANGALORE. KN
4 JAN. 1934
Regd. No. 83
File. No.

3/1

Please see also note enclosed with para III

7 The Savings pointed out by the Residency Surgeon is out of "Pay of Officers" which we have already surrendered to the Govt. of India. Unless the Residency Surgeon can find funds for the extra post of the Sub-Assistant Surgeon from any other head, the creation of the post may be considered early next year.

P.P. noted. Responsibility

8 In the enclosure to the D.O. letter from the Residency Surgeon (P.u.c. III) he suggests the permanent transfer of the Pathologist attached to the Rajkot Hospital here, and the retirement of the present Pathologist of the Bowring Hospital. The Residency Surgeon has raised two questions in this connection, viz., (1) whether the Pathologist at Rajkot may be enlisted here on the grade of pay drawn by him there; and (2) whether his pension rights will be safeguarded if he is transferred here. The answer to both the questions is in the affirmative, provided that the maximum pay of the Rajkot Pathologist does not exceed the maximum pay of our Sub-Assistant.

9 It is presumed that even if the present Pathologist is retired on the permanent transfer of the Rajkot Pathologist to this Hospital, the original proposal of the Residency Surgeon contained in P.u.c.II for an additional Sub-Assistant Surgeon will stand.

10 It is also presumed that in view of the proposal for the permanent transfer of the Rajkot Pathologist, it will not be necessary to incur an expenditure of Rs.100/- on account of his deputation to train the present Pathologist.

[illegible] from para 1 [illegible] (1) [illegible] II

To be marked confidential.

The Residency Surgeon may see the above note U.O. for remarks with reference to paras 7, 9 and 10 above.

To The Residency Surgeon, Bangalore No.

Genl 306. 10/1/34. Secy

12 Para 7 on. If the savings shown have been surrendered I agree that I cannot point out them, but I would urge that the case be proceeded with since it is unlikely that there will be more than one vacancy of the new post to fund (& this one Lamalem has been shown as the appointment made) from 1933/34 Any other amount could probably be found from funds at disposal of Resident?

13 Para 8. on. The grade pay of the individual is within the limits of our Sebastian Lingam cadre.

14 Para 9 on. The presumption is correct

15 Para 10 on. It is to be remembered that the CRO Rajkot must agree. If he agree to transfer the memorandum will not be necessary otherwise it will be essential

W.

Sept 6/0

16 Please see the three P.U.Cs and the foregoing notes from para. 1.

17 P.U.C. I and III

(a) Equipment for the laboratory.

May be sanctioned and the expenditure met from the corrent year's grant.

(b) Deputation of the Rajkot Pathologist for ~~xxx~~ one month.

The original proposal contained in P.U.C. I for the deputation, for a month, of the Rajkot Pathologist has been altered by the proposal in P.U.C. III for his permanent ~~x~~ transfer. The Residency Surgeon's proposal to open negotiations for the permanent transfer of the Pathologist may be approved.

P.U.C. II

18 Please see para. 7 and 12 of notes. There are no funds at the disposal of the Resident from which the amount required on account of the creation of the post of an additional Sub-Assistant Surgeon, during the current year, can be found. The post may, therefore, be sanctioned with effect from the 1st March 1934 and the expenditure met out of the next year's budget.

A consolidated draft is submitted as verbally directed.

(from para 16)

24.1.34

25

Letter No.T.3-Bang.2-748, dated the 9th February 1934, from the Accountant General, Madras.

There are four Sub-Assistant Surgeons in the Bowring and Lady Curzon Hospitals and they get the following pay and allowances:-

		Pay per mensem.
1	Sub-Assistant Surgeon (75-5-175-200) Rs.	200
1	-do- -do- "	150
1	-do- -do- "	115
1	-do- -do- "	95
	Special pay to Laboratory Sub-Asstt.Surgeon	30
	Special pay -do- -do- for doing Isolation Hospital work.	20
	Special pay to X.Ray Sub-Asstt.Surgeon.	25
	Local Allowance to 4 Sub-Assistant Surgeons 4 @ Rs.10/-	40

In S.N.4 an additional Sub-Assistant Surgeon (temporary) on Rs.75-5-175 plus local allowance of Rs.25/- has been sanctioned temporarily for one year from the 1st March 1934.

Under Fundamental Rule 44 the sanction of the Government of India is necessary for granting the temporary Sub-Assistant Surgeon the local allowance of Rs.25/- or Rs.10/-. The Residency Surgeon may be asked whether he sees any objection to the cancellation of the local allowance sanctioned in S.N.4. This will avoid a reference to the Government of India. The question of granting him a local allowance of Rs.10/- may be considered when it is proposed to make the appointment permanent.

Submitted for orders.

T. N. Thangavelu Mudaliar.
23-2-1934.

Secretary.

S.N.6
P.C. & II

D.O. letter No.1/P.B/34, dated the 27th February 1934, from Lt. Col. J.B.Hance, O.B.E., I.M.S., Residency Surgeon, Bangalore.

Please see para 2 of S.N.4 in which the Residency Surgeon's proposal to open negotiations with Civil Medical Officer, Rajkot Hospital with a view to effect a permanent transfer of the Pathologist attached to the Rajkot Hospital to the Bowring and Lady Curzon Hospital in place of the present Pathologist was approved.

In para 3 of S.N.4 the creation of the post of an additional temporary sub-Assistant Surgeon on Rs.75-5-175 with a local allowance of Rs.25 per mensem in the Bowring Hospital for one year with effect from 1st March 1934 was sanctioned.

Lieut. Col. Knowles, I.M.S., now recommends that Dr. L. R. Sharma, may be given an initial salary of Rs.275 plus the Laboratory allowance, Compensatory allowance and free quarters. The present pathologist is a Sub Assistant Surgeon drawing a pay of Rs.200/- in the selection grade plus special pay of Rs.30/- and Rs.20/- per mensem (Laboratory Allowance). It appears therefore that Dr.L.R. Sharma cannot be appointed to act in his place during his absence on leave on a pay of Rs.275/-.

The following proposals, which are free from audit objection, are submitted for consideration.-

(a) Creation of a temporary post of Assistant Surgeon in the scale of Rs.200-15-350-20-450 for a period of one year. Dr. Sharma may be appointed in this post on a pay of Rs.275/- on probation for six months.

* The existing scale for Asstt. Surgeons here.

(b) He may be given the special pay of Rs.30 and Rs.20 per mensem (Laboratory Allowance) now drawn by the present Pathologist.

(c) No compensatory allowance can be sanctioned by the Resident as it requires the sanction of the Government of India under F.R.44 - vide p.u.c. I.

(d) He may be given the quarters occupied by the present Pathologist.

(e) In place of the present Pathologist a Sub Assistant Surgeon may be appointed temporarily in the scale of 75-5-175 till the permanent man retires. He will get the local allowance of Rs.10/- per mensem attached to the post. He may be given quarters elsewhere.

If the above proposals are accepted, the extra cost to Government during 1934-35 would be as follows:-

Pay of Assistant Surgeon at Rs.275 per mensem from 1-4-34 to 28-2-35 i.e. for 11 months . 275 x 11.	Rs.3,025

This

This can be met by reappropriation from savings anticipated in the next year's budget.

If approved the order creating an additional Sub-Assistant Surgeon on Rs.75-5-175 with a local allowance of Rs.25/- may be cancelled and in its place the creation of a temporary post of an Assistant Surgeon on a pay of Rs.275 in the scale of Rs.200-15-350-20-450 may be sanctioned under Rule 58 of the Book of Financial Powers. In the usual course he will get the special pay of Rs.30 and Rs.20 for doing laboratory work in the Bowring and Lady Curzon Hospitals and Isolation Hospital.

If approved the file may be sent u.o. confidentially to the Residency Surgeon for favour of remarks.

(From para 21)

T.N. Thangavelu Mudaliar
Secretary.
1-3-1934

Will Residency Surgeon please see. On a temporary basis and to meet immediate needs, the arrangement proposed in paras. 21-25 above seems to afford the best solution; and if Residency Surgeon agrees, I shall submit it for Resident's orders. But we must remember that the sanction given by Resident can be a temporary one only, for a period of

one year in the first instance; and I think that we should go up to G. of I. as soon as possible with a recommn to have things put on a proper permanent basis.

27 Residency Surgeon's copies of correspce with Colonel Knowles will be returned to him after we have taken copies for our own file.

C Ross
3.3.34

Residency Surgeon

Yo

28 Thank you very much. The procedure suggested seems to be a very sound solution of the position. I take it that there will be no doubt that G. of I. will accept Resident's recommendation. In any case Sharma being retrenched should be glad of a year advantageous employment, and I do not anticipate trouble from that quarter. The labouring question is very serious and the states of the hospitals demands a reliable and expert man. These are not easy to obtain & we have the chance of one on very advantageous terms.

MM 6/3

~~Secretary to~~ Yo. R.O.

29 With reference to para 23(c) Sr. I have that "given lodging elsewhere" connotes the grant of house rent allowance on a prescribed scale?

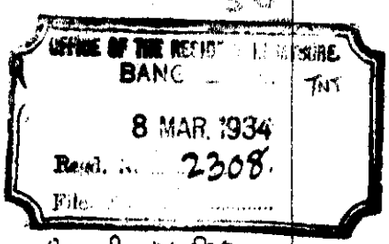
No. 6/PB/34.

Cbne 7/3

30



θ 2.N 82
F.21-1927

Submitted for orders with reference to para 26 of the Secretary's note.

As regards para 29 please see memorandum No. F. 240-A/30, dated the 25th January 1932, from the ----- Government of India, Foreign and Political Department in which concessions of rent-free quarters were ----- reaffirmed in the case of Sub-Assistant Surgeons of the Bowring Hospital. Therefore the temporary Sub-Assistant Surgeon may be given quarters in the Bowring and Lady ---- Curzon Hospital if any building is vacant . House rent allowance cannot be given to him in lieu of rent-free quarters without the orders of the Government of India.

31

In this connection it may be noted that the concession of rent-free quarters was not extended to the Head Clerk and 1st Steward of the Bowring and Lady Curzon Hospitals. Therefore rent is recovered from him for the building occupied by him in the hospital. It is ---- understood that the present Head Clerk will retire shortly. On his retirement the quarters occupied by him may be given to the temporary Sub-Assistant Surgeon.

θ 2.N.89
21-27.

If the above proposals in para 23 are accepted the -------- Residency Surgeon may be asked to write officially in the matter.

T.N. Thangavelu
Assistant
13-3-1934.

Secretary.

32 With Resd: please see from para. 21 of letter. Residency Surgeon considers this appt: to be one of very great importance to the hospital. If Resd: is prepared to give his approval to the proposals outlined in paras. 23 to 26 of letter, I shall settle any other remaining points of detail with Resd: Surgeon and try to get the whole arrangement put on a proper permanent footing as early as possible.

Clow
13.3.34

32a Resd:

Approved - but I am not quite clear as to the necessity of sentence in para 23 (e).

[illegible]
Secretary

34 The proposal at para 23 (e) is intended — as I read it — to cover the request made by Resd: Surgeon in S. No. 2, namely to provide a man to take the necessary turns of duty in wards and O.P. Dept: and thus relieve the Pathologist from for whole time laboratory work.

P

If this is correct, we can now proceed with the case as quickly as possible. Is it absolutely necessary that Resr. Surgeon should send up proposals officially? If so, it must be done; but it seems to me that we have sufficient material on the file now: and if we can get on with the thing without further official correspce, it will save a lot of time and trouble for everyone.

35 The points raised in paras. 29 & 31-31 of notes still remain to be settled. If we are going to put the arrangements into force at once, quarters will have to be found for the S.A.S. in the hospital. A proposal to give him house-rent allowance in lieu of free quarters would require sanction of G. of I; and that would take time. Resr. Surgeon will have to be consulted again on this point.

Clow
15.3.34

36 The statement made in para 34 of the notes is not correct. Official application is not absolutely necessary. Draft order is submitted for approval.

The grant of leave to the present Pathologist and the appointment of a tempovary Sub-Assistant Surgeon in his place can be done by the Residency Surgeon himself. Therefore no

orders from this Residency appear to be necessary. The ------ provision of quarters to the medical staff can also be arranged by the Residency Surgeon himself.

After the issue of the draft the file may be sent U.O. to the Residency Surgeon, Bangalore.

T. N. Thangavelu Mudaliar
19-3-1934.

Secretary.

37 Residency Surgeon should see before issue. The draft seems to cover all immediate requirements, as far as it is possible to do so. In this connection, with Residency Surgeon please see in particular paras. 30-31 and para. 35 of notes.

38 After the draft has issued, Office should put up a note showing what further action will then be necessary to put the arrangement on a permanent footing, instead of a temporary one.

19.3.34.

Residency Surgeon

Office of the Residency Surgeon,
Bowring Civil Hospital,
Bangalore, Dated 19th March 34.

39 Seen, and returned with thanks.

In view of the remarks at paras 30 to 31 of the notes, the newly appointed Sub Asst. Surgeon will be given the quarters at present occupied by the Head clerk

and First Steward, ~~and~~ which will be rent-free.

40

I should like to confirm that the Secretary's assumption in para 34 of the notes, is correct. I do not, therefore, see any necessity to apply to the Govt. of India for a concession of house rent and new quarters:

The Secretary

to the Resident in Mysore,

B a n g a l o r e

SUBJECT;- Laboratory-modernisation of-

Sir,

I have the honour to bring to your notice that my predecessor Bt-Col. J.McPherson,C.I.E., in handing over to me expressed himself as not satisfied with the work of the Laboratory at the Bowring & Lady Curzon Hospitals. He considered that the reasons that full efficiency was not attained were:-

1. The fact that the Pathologist was compelled, in addition to his laboratory work, to take his turn of duty in the wards and Out-Patient Department and to attend to medico legal work, whereas the volume of work in the Laboratory was more than sufficient to occupy his whole time.

2. That certain articles of equipment were insufficient.

3. During my period of office I have come to a similar conclusion to Col. McPherson; and I am of opinion that if the Laboratory is to supply the needs of the hospital, the Pathologist should be whole time and certain alterations are necessary. With regard to the former I am submitting a separate representation to you; but I have the honour to detail below the other alterations that are necessary:-

In the first place the present Pathologist has been 20 years away from any special pathological Institu[illegible] and [illegible]

and has therefore lost touch with the more recent developments of clinical Laboratory work. It is, at the moment, impossible for him to be spared to undergo a post graduate course; and, in any event, the course which I have in mind does not start until July next. In the meantime it is highly desirable that he should receive instructions in certain laboratory methods. To this end I should recommend that the Pathologist attached to my late hospital at Rajkot be brought here for a period of one month to reorganise Laboratory, and to put the present Pathologist in the way of certain of the more recent routine work. I have already been in personal and unofficial communication with the Chief Medical Officer of the Western India States Agency, who has agreed to spare the services of the officer when required. The expenses involved would be the second class return fare from Rajkot to Bangalore- Rs 80 /12/-, and I would suggest that the officer, who holds the diploma of Tropical Medicine of the Calcutta University, should be granted an honorarium of Rs 100 If the Hon'ble the Resident is pleased to sanction the proposal I could enter into official correspondence with the Chief Medical Officer, Rajkot.

In the second place bacteriological equipment, notably the Incubator, is insufficient to cope with the amount of work required, and a second Incubator estimated at the cost of Rs 450/- is an urgent necessity.

There are certain other articles of equipment which are required, the cost of which will not exceed an additional Rs 150/- which can also be met from the funds at my disposal if sanctioned, I therefore request that sanction for the expenditure of Rs 600/- on Laboratory equipment may be accorded.

I have the honour to be
Sir,
Your most obedient servant

J. M. Lawe

Lt-Colonel., I.M.S.,
Residency Surgeon, Bangalore.

File No. 428/33.

The Secretary
to the Resident in Mysore,
B a n g a l o r e.

SUBJECT:- Extra Sub-Assistant Surgeon-appointment of-

Sir,

S.N. 1 Pucl

I have the honour to refer to my letter No. /800/147-B dated the 11th. November 1933, in which I have stated that Col. McPherson expressed himself as not satisfied with the Laboratory work the main reason being that the Pathologist was compelled, in addition to his laboratory work, to take his turn of duty in the wards and Out-Patient Department and to attend to medico legal work, whereas the volume of work in the laboratory was more than sufficient to occupy his whole time. I have come to a similar conclusion and am of opinion that if the Laboratory is to supply the needs of the hospital, the Pathologist should be whole time.

In order to make the present Pathologist whole time it would be necessary to create a new appointment at Rs 75-5-175 plus Local Allowance of Rs 25/- per mensem of a Sub-Assistant Surgeon to take the necessary turn of duty in the wards and Out-Patient Department. For this sum I consider that we should be able to obtain a Sub-Assistant Surgeon holding the qualification of Liscentiate in Tropical Medicine of the Calcutta University, who would not only fill the vacancy in hospital duties caused by the Pathologist becoming whole time but would, with his qualification, form a leave and sickness reserve for the Laboratory work. It is very desirable that special departments such as laboratory and X-ray on which the efficiency of a

modern

modern hospital largely depends, should not be subject to dislocation in the event of their permanent incumbent taking leave or falling sick; and it is my intention, if the Hon'ble the Resident is pleased to sanction this new appointment, to utilise the new man as a leave reserve in the Laboratory during the absence on a post graduate course of the permanent incumbent, and also in hospital generally during the time that another Sub-Assistant Surgeon is sent to qualify himself as a reserve in Radiology.

I have the honour to be

Sir,

Your most obedient servant,

Lieut-Colonel. I.M.S.,

Residency Surgeon, Bangalore.

SN 9

(Page 42

RESIDENCY SURGEON'S OFFICE,
BOWRING CIVIL HOSPITAL.

Bangalore, 3. 1. 1934

My dear Reinhardt.

The ~~note~~ note following may need be read with my note on p.p.c. 1 but, being at the moment unable to put on an open file I am sending it confidential as I am not sure of my own office.

Yours sincerely.
W. Haines

Note begin: Re P.P.C. 1. Since submission of my letter recommending the deputation of a pathologist I have had further specimens of the tabes incumbent. His work is most unsatisfactory and I am in grave doubt as to whether he is capable of improvement. He is set in his ways and not receptive of new ideas & methods and his technique is slovenly. If therefore, I can agree with Capt Rajput & the permanent transfer of the pathologist I should like to know if I may do so, ~~and~~ and select him at his equivalent grade in our cadre, without prejudice

to his pension rights. He is paid at Rajkot from Central Revenues and would be paid here from N. A T. funds. His transfer would therefore involve a saving to Central Revenues, who would thus merely be charged for his pension. Before opening negotiations with Govt. Rajkot I should be glad of information on other question. If the transfer is effected, the present incumbent will be granted after such leave as is due to him" Note end.

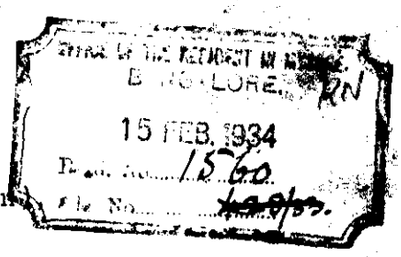
Enclosures.



FROM

THE ACCOUNTANT GENERAL,
(T. A. III Section)
MADRAS,

To

The Secretary to the Hon'ble the Resident
in Mysore, Bangalore.

SIR,

Subject:- Appointment of an extra Sub Assistant Surgeon.

With reference to paragraph 3 of your letter No.829 dated the 27th January 1934 addressed to the Residency Surgeon Bangalore, on the subject noted above, I have the honour to state that the grant of a local allowance to the Sub Assistant Surgeon requires the sanction of the Government of India under Fundamental Rule 44. In this connection, it is also pointed out that the rate of local allowance that has been sanctioned to the other Sub Assistant Surgeons of the Bowring Hospital is Rs.10/- each per mensem and not Rs.25/- per mensem.

I have the honour to be,
Sir,
Your obedient servant,

R.V.

Assistant Accounts Officer.

P. V. Early
Yours 28/2

My dear Edwards,

With reference to the draft letter to Knowles, Calcutta, regarding a Pathologist which I showed you the other day, I send herewith, in original, his reply.* He offers us a very much better article than I anticipated, and, as it is within the sanctioned scale, I strongly advise your empowering me to write to Knowles for instructing Dr. Sharma to join duty as soon as he is free from his present employment. It would also give Knowles an opportunity to give him the refresher in Bio-Chemistry and other departments which he suggests.

* Please return when seen. 1/III

It is for consideration whether, Dr. Sharma's appointment should be probationary for six months. I think, it should.

Yours Sincerely
J.B. Hance

Personal. Confidential.

Calcutta School of Tropical
Medicine
Central Avenue,
Calcutta.
The, 22nd February 1934.

Dear Hance,

In reply to your letter of the 17th, I think we have the man for you here, - Dr. L. R. Sharma, M.B.B.S. (Lahore), D. T. M. & H., (Camb.), M.R.C.P. (Edin.), D.P.H. (Camb.)

Sharma has been working for the last three and a half years under the Kala-azar Enquiry at the School, under Napier, and more recently under Dr. R.O.A.Smith, I.M.D., and also for about 6 months under Col. Acton. He has a very sound general bacteriological and protozoological knowledge, and has high academic qualifications. Owing to retrenchment by the Indian Research Fund Association, the Kala-azar Enquiry is being reduced by almost fifty per cent. and Sharma's services are being dispensed with from March 31st of this year; so that he will be free from April 1st. At present he is serving under the Indian Research Fund Association.

His general knowledge is good, and he is a sound laboratory technician. I think he would do well at routine laboratory work. With regard to your para 4, elementary blood chemistry -, I can arrange for him to have a month's training in March in Dr. J.P. Bose's department at the school; and also to rub up his bacteriological and protozoo-logical knowledge in the departments at the School.

With regard to salary, on account of his experience, qualifications and services already rendered, I recommend he be placed on initial salary of Rs.275/- plus the laboratory allowance, compensation allowance and free quarters.

Yours sincerely,

Sd. R. Knowles.

To

Secretary. u/o.

The lack of official note stationary is regretted.

The C.M.O. at Rajkot has regretted his inability to spare the pathologist referred to in previous correspondence. Meanwhile the need for a really efficient man is as urgent as ever. Certain incidents of which Secretary is aware demand early action, and the laboratory is in a state when no finding can be relied upon.

I attach a draft letter to the officiating Principal of the Calcutta School of Tropical Medicine which, I trust is self explanatory we can with confidence rely upon him to help us if he can.

If, therefore the paragraphs marked A. B. & C. are approved, the draft can issue, B may possibly involve a little extra expense but a good man is, in my opinion, essential. Will Secretary very kindly treat as urgent ?

Draft.

(Paper)

Lt. Col. R. Knowles, I.M.S.,
Professor of Protozoology and Officiating Principal,
School of Tropical Medicine, Calcutta.

My dear Knowles,

I am writing to ask you if you can help me to obtain a really reliable pathologist, someone of the stamp of Trivedi whom I sent from Rajkot for both L. T. M. & D. T. M.; in the latter exam. he got 2nd place last March.

The essentials I require are:-

1. A thorough knowledge of stool examination and culture, on the lines of your work with Acton, and with especial reference to the identification of cysts.

2. A reliable skill in Widal, Wassermann (or Kahn), and in the agglutination against the Dysentery bacilli,

3. A reliable skill in bacterial culture and the preparations of auto-vaccines, and in clinical haematology, malaria etc.

4. An acquaintance with elementary clinical bio-chemistry, such as estimations of blood urea, sugar, calcium etc., on the lines of Beaumont & Dodds "Recent Advances in Medicine".

If the man you recommend is a subassistant surgeon with L.T.M. the pay we offer is in the grade Rs.75-5-175, (Revised scale 65-7½/2-110-10/2-130) with selection grade of Rs.200, with Rs.30 laboratory allowance, and Rs.10 compensation allowance. Free quarters or Rs.15 rent allowance in lieu.

If on the other hand he is a graduate, with D.T.M. we would offer (Revised Scale - 175-15-310-20-410) Rs.200-7/8-350 with selection grade of Rs.400 and similar allowances.

In each case the starting pay in the grade concerned would be commensurate with his experience and length of service; and in this we should be very largely guided by your recommendation.

The post also carried the right to 75% of the fees earned by the laboratory, amounting at present to about Rs.50-75 p.m. There is great scope for increase in this item.

If you can help us, I should be particularly grateful ~~if you would be particularly grateful~~ if you would give the question your personal attention. The hospital is a large one of 200 beds, catering for European, Anglo-Indian and Indian patients; it has a very fine tradition and reputation, but the laboratory has of late fallen into grave, and not unmerited disrepute; and I am very anxious to get a first-class man to pull it together.

This appointment is, of course, separate from one recently

advertised.

Subject:—
Grant of House Rent allowance to Pathologist.

SIR,

I have the honour to state that the Pathologist newly appointed under Proceedings No.2199 dated 22nd March 1934 is required to reside in the hospital compound or in the vicinity of the hospital, in the interests of his duties.

The Pathologist is an Assistant Surgeon with European qualifications and no quarters for an Assistant Surgeon or any suitable to his status are available in the hospital. In order to ensure proper performance of his duties he is obliged to hire a bungalow in the vicinity of the hospital on a monthly rent of Rs.60/-.

The House Surgeons and the Lady Asst. Surgeons of the Bowring and Lady Curzon Hospitals and the Asst. Surgeon in charge of the Isolation Hospital are provided with free quarters and the Asst. Surgeon in charge of Hajee Sir Ismail Sait Ghosha Hospital is occupying the quarters free of rent, adjoining the hospital, which have been leased by Government from the Municipality on a rent of Rs.50/- a month.

In the circumstances I recommend that a house rent allowance of Rs.50/- per mensem may be granted to

Page 20

to the Pathologist and necessary sanction may kindly be accorded under F.R.44.

I have the honour to be,

Sir,

Your most obedient servant,

J. N. Hawes

THE Secretary
to the Hon'ble the Resident
in Mysore,
BANGALORE.

Subject:—

SIR,

I have the honour to invite a reference to the proceedings of the Hon'ble the Resident No.2199 dated the 22nd March 1934 creating the post of a temporary Pathologist in the Assistant Surgeons' Grade for the Bowring & Lady Curzon Hospitals and to my Confidential letter No. 26/P-B/34 dated the 23rd March 1934 requesting that early steps be taken to make the post permanent.

S.N.7 P

S.N.8 P

2. In this connection I enclose in tabular form a statement showing the amount of work performed in the Laboratory of the Bowring and Lady Curzon Hospitals in the present quarter (i.e., the months of May, June and July 1934); the corresponding quarter of 1933 and the 3 months previous to the appointment of the Pathologist (January, February and March 1934). A study of this statement will show that the work of the Laboratory in Bacteriological, Serological, Cytological and Parasitological examinations has increased out of all proportion, while Clinical Bio-Chemistry previously impossible has been instituted. The one exception to the above increase is the examinations of urine; and that this is explained by the fact that previously the routine chemical examination of urine of every

patient on admission was performed in the Laboratory whereas now this takes place in the wards by the Nursing Staff, and the 358 examinations noted during the present quarter consist entirely of cases in which in addition to the chemical examination a microscopical examination was also deemed necessary.

3. Even now with its present staff the Laboratory is not capable of fully discharging the claims upon it, more especially with regard to Bio-chemical examinations, which are the subject of a separate reference. But I submit that the figures here given establish that the appointment of a skilled Pathologist has been fully justified and that in view of the increasing claims made upon him his appointment should be made permanent.

4. In this connection I would also invite attention to the fact that since the Pathologist's appointment the Laboratory has become to an increasing extent a centre of reference by the general practitioners of the Civil and Military Station, with consequent benefit to the public at large, in addition to the inmates of the Hospital. Under the previous regime no such reference was possible and from this aspect also, I submit that making of the post a permanent one is desirable.

5. I have the honour, therefore, to request that Hon'ble the Resident will be pleased to take necessary steps with the Government of India to place this post on a permanent footing.

I have the honour to be,
Sir,
Your most obedient servant,

Lt.-Col., I. M. S.,
Residency Surgeon.

SN.13

No.F.1030-34
R.O.II.

From

The Hon'ble Lieut.-Colonel C.T.C. Plowden, C.I.E.,

RESIDENT IN MYSORE.

Issued 11/11/34.

To

The Political Secretary to the Government of India,

Foreign and Political Department.

Dated, Bangalore, the 2nd November 1934

Subject:- Appointment of a Pathologist in the Bowring and Lady Curzon Hospitals, Bangalore.

.....

Sir,

I have the honour to address the Government of India in the matter of the entertainment of an additional Assistant Surgeon in the Bowring and Lady Curzon Hospitals, Civil and Military Station, Bangalore, for appointment as Pathologist.

2. Until recently the pathological work of these hospitals was done by a part-time Sub-Assistant Surgeon. He was paid in addition to his pay an allowance of Rs.30/-, and drew special pay of Rs.20/- for laboratory work connected with the Isolation Hospital, Bangalore, one-fourth of the special pay being recovered from the Municipal Commission, Civil and Military Station, Bangalore. He had, in addition to his laboratory work, to take his turn of duty in the wards and the out-patient department and to attend to medico-legal work, whereas the volume of work in the laboratory itself was more than sufficient to occupy his full time. Moreover the Sub-Assistant Surgeon who was doing this work had been for twenty years away from any special

special pathological institution and was therefore out of touch with the more recent developments of clinical laboratory work. For these reasons the work of the laboratory was in an unsatisfactory state; and the Residency Surgeon considered that it should be placed without delay in charge of an efficient and whole-time Pathologist of the grade of an Assistant Surgeon. With my previous approval, he sought the help of Lt.Colonel R. Knowles, I.M.S., Offg. Principal, School of Tropical Medicine, Calcutta, in the matter of selecting a suitable candidate for appointment as Pathologist; and the latter suggested the name of Dr. L.R. Sharma, M.B.B.S.(Lahore), D.T.M.& H.(Camb.), M.R.C.P.(Edin.), D.P.H.(Camb.), who was at the time serving under the Indian Research Fund Association.

3. As the Residency Surgeon considered the appointment to be one of great importance and urgency, I sanctioned, as a temporary measure for one year with effect from the 1st April 1934, the creation of an additional post of an Assistant Surgeon in the scale of Rs.200-15-350-20-450 in the Bowring and Lady Curzon Hospitals, and approved the appointment of Dr. Sharma to the post on an initial pay of Rs.275/- plus the Pathologist's allowance of Rs.30/- and the special pay of Rs.20/-. Dr. Sharma took up his duties on the 1st April 1934.

4. The interests of the large number of European, Anglo-Indian, and Indian patients treated at the Bowring and Lady Curzon Hospitals demand that there should be a first class Pathologist attached to these Hospitals, on whose findings the Residency Surgeon can rely. I enclose a statement received from the Residency Surgeon showing the amount of work performed in the Laboratory of the Bowring and Lady Curzon Hospitals during the quarter ending the 31st July 1934, as compared with that of the corresponding quarter of 1933 and of the quarter (January, February and March 1934) immediately preceding the appointment of

(26

of the temporary Pathologist. It will be seen from this statement that the work of the Laboratory in Bacteriological, Serological, Cytological, and Parasitological examinations has increased enormously, while Clinical Bio-chemistry, previously impossible, has been instituted. The one exception to the increase is in the examinations of urine; and this is explained by the fact that previously the routine chemical examination of urine of every patient on admission was performed in the Laboratory, whereas now this is carried out in the wards by the Nursing Staff: and the 358 examinations noted during the quarter ending 31st July 1934 consist entirely of cases in which, in addition to the routine chemical examination, a microscopical examination was also necessary. In this connection it may also be mentioned that since the appointment of the Pathologist, the Laboratory has become to an increasing extent a centre of reference by the general practitioners of the Civil and Military Station, with consequent benefit to the public at large, in addition to the inmates of the Hospital.

5. The facts and figures referred to in the preceding paragraph establish the fact that the appointment of a skilled Pathologist has been fully justified. The Residency Surgeon therefore considers, and I agree with him, that the arrangement sanctioned by me as a temporary measure should now be placed on a proper and permanent footing. I accordingly recommend that the Government of India may be pleased to sanction, as a permanent measure, the creation of the post of an additional Assistant Surgeon in the Bowring and Lady Curzon Hospitals for appointment as Pathologist. Pending the fixation by the Government of India of revised rates of pay for Assistant Surgeons in the Civil and Military Station of Bangalore, the pay of the new post may be fixed at Rs.175-15-310-20-410, which is the scale of pay sanctioned by the Government of India in Foreign and Political Department Memorandum No.F.15(24)-E/34, dated the 19th July 1934, for future entrants to the temporary post of Assistant Surgeon (Pathologist) in the Bowring Hospital.

The

The incumbent of the post may be allowed to draw the allowance of Rs.30/- and the special pay of Rs.20/- attached to the Pathologist's post. The proposal may be sanctioned with effect from the 1st April 1935, the date on which the present temporary arrangement is due to expire. The necessary provision has been made in the Mysore Assigned Tract Budget estimates for 1935-36.

The post, when sanctioned, may kindly be included in General Central Service (Class II).

6. In the interests of his duties, the Pathologist is required to reside in the hospital compound or in the vicinity of the hospital. The House Surgeons and the Lady Assistant Surgeons of the Bowring and Lady Curzon Hospitals, and the Assistant Surgeon in charge of the Isolation Hospital, are provided with free quarters; and the Assistant Surgeon in charge of Hajee Sir Ismail Sait Gosha Hospital is occupying quarters free of rent, adjoining the hospital, which have been leased by Government from the Station Municipality on a rent of Rs.50/- a month. A house in keeping with an Assistant Surgeon's status is not available in the hospital compound for the occupation of the Pathologist; and he has been obliged to hire a bungalow near the hospitals on a monthly rent of Rs.60/-. I therefore recommend that until such time as he is provided with free quarters, he should be granted a house rent allowance of Rs.50/- per mensem. This amount cannot be considered excessive, having regard to the comparatively high rent of residential buildings in the vicinity of the hospitals. As Dr. Sharma has been occupying his present house ever since his appointment, I recommend that he may be granted the allowance with effect from the date of his appointment, viz., 1st April 1934. The extra expenditure for 1935-36 has been provided for under Part II - Fresh Charges of the Mysore Assigned Tract

Budget

(28

Budget for 1935-36; and that for the current year will be met by reappropriation.

I have the honour to be,
Sir,
Your most obedient servant,

A. Caperton

OFFICE OF THE ACCOUNTANT-GENERAL, MADRAS.

Fort St. George, 10th September *193*

No. G.A.D. Medl. II-487.

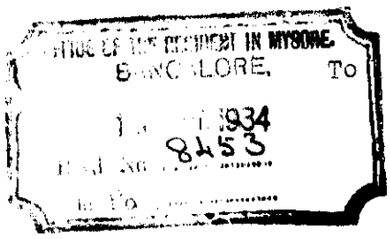
Enclosures.

From

K. R. S. Rau, Esq., B.A. (Cantab.),

Accountant-General, Madras.

(G.A.D. Section).



To

The Secretary to the Hon'ble the Resident in Mysore,

BANGALORE.

S.N.7

Reference:-- Proceedings of the Hon'ble the Resident No.2199 dated 23rd March 1934 creating the temporary post of an Assistant Surgeon on Rs.200-15-350-20-450 for the Bowring Hospital and your No. 3670 dated 19th May 1934 stating that the post is a Non-Gazetted one.

S.N.10.

S i r,

With reference to the above, I have the honour to invite a reference to Rule 21 of the Civil Services, (Classification, Control and Appeal) Rules under which all temporary appointments should be sanctioned as temporary additions to a cadre. The four permanent posts of Assistant Surgeons in the Mysore Residency have been classified and included in the General Central Services (Class II) by the Governor-General in Council - Vide Government of India, Finance Department Notification No. D.6032(1) Ex. 1/32 dated 1st July 1932. Of these two posts viz., Assistant Surgeon, Isolation Hospital, and Assistant Surgeon, Hajee Sir Ismail Sait Gosha Hospital, are in the timescale 200-15-350-20-450, which is the same as the time scale sanctioned by the Hon'ble the Resident for the temporary post of Assistant Surgeon in the non-Gazetted service in his proceedings No.2199 dated 23rd March 1934. As long as

as there is no proposal to relegate the posts of Assistant Surgeons in the Civil and Military Station, Bangalore, to the subordinate Service - (this office is not aware of any such proposal) - the temporary post now created should, it would appear, be also classed as a temporary addition to the above mentioned General Central Service (Class II). As the strength of this service is determined by the Governor-General in Council under Rule 36 of the Civil Services (Classification, Control and Appeal) Rules, the creation of this temporary post requires the sanction of that authority, and it may kindly be obtained.

+ Page 17 of this book

In this connection, I may kindly be informed whether the question of fixing new scales of pay for the four posts of Assistant Surgeons has been taken up with the Government of India.

I have the honour to be,

Sir,

Your obedient servant,

K A S Rao

ACCOUNTANT GENERAL.

No. F.1030-34/R.O.II. Dated 8th Novr. 1934.

From

The Secretary to the Resident.

To

The Accountant General,
Madras.

Appointment of an additional Assistant Surgeon (Pathologist) in the Bowring and Lady Curzon Hospitals, Bangalore.

Sir,

With reference to your letter No. G.A.D.Medl.II-487, dated the 10th September 1934, I am directed to forward copies of the marginally* noted papers, from which it will be seen that the post of the temporary Assistant Surgeon will be included in General Central Service (Class II) if and when it eventually becomes

MGIPC—81—207 (GPS) HGP—(M-160)—27-4-32—50,000 vols.

becomes permanent. The Government of India have since been requested to make the post permanent with effect from the 1st April 1935 and to include it under Central Service (Class II); and their orders will be communicated to you in due course.

Letter under issue.

2. In reply to paragraph 2 of your letter, I am directed to say that the Resident has not been asked to propose new scales of pay for the four posts of Assistant Surgeons included in General Central Service (Class II). In the case of the temporary Assistant Surgeon, whose post has not been included in that cadre, the Government of India have sanctioned a scale of Rs.175-15-310-20-410 as against Rs.175-25/2-400 proposed by the Resident - vide copies of letters communicated to you with my endorsement No.233-R.O.II-34, dated the 7th August 1934.

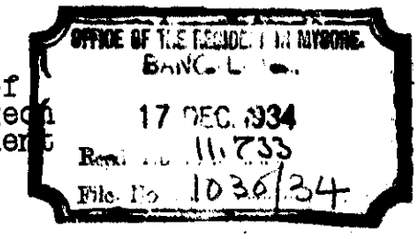
From - The Assistant Secretary to the Government of India
in the Foreign and Political Department,

To - The Hon'ble the Resident in Mysore.

Memorandum No.F.30(33)-E/34.

Dated New Delhi, the 13th December 1934.



Continuance of the post of Additional Assistant Surgeon (Pathologist) as a permanent measure.

S.N.13 (Cor.P.24)

Reference your letter No.F.1030-34/R.O.II., dated the 2nd November 1934 on the above subject.

2. In the circumstances explained by you the Government of India are pleased to sanction the continuance as a permanent measure of the temporary post of Additional Assistant Surgeon (Pathologist) in the Bowring and Lady Curzon Hospitals, Bangalore, with effect from the 1st April 1935, on a scale of Rs.175-25/2-400 which is being fixed for future entrants to the posts of other Assistant Surgeons in Bangalore. As a separate post has been created for pathological work, they see no justification for the granting of any special pay or allowance on this account to the Sub-Assistant Surgeon who formerly used to perform this work in addition to his other duties or to the Assistant Surgeon. It is presumed that the grant to the former of the allowances amounting to Rs. 50/- per mensem was discontinued on the creation of the latter appointment and the grant of these to the Assistant Surgeon should also now be discontinued from the 1st April 1935. As, however, this would be hard on Dr. Sharma to start on Rs. 175/- per mensem only the Government of India are pleased to fix his initial pay at Rs.225/- per mensem in the scale of Rs. 175-25/2-400 from that date.

3.

3. The Governor General in Council has also been pleased to sanction with effect from the 1st April 1935 the grant to the Additional Assistant Surgeon (Pathologist) of a House rent allowance of Rs. 50/- per mensem which will be personal to the present incumbent Dr. Sharma.

4. Arrangement is being made to include necessary provision on account of the continuance of the above post in the Mysore Assigned Tract budget estimates for 1935-36.

S. V. Rao

Assistant Secretary to the Government of India.
